

Music Machine 7

Music Machine 7 uses only 3 notes (c, eb and f) and 3 parts.

Each part plays either one of the three notes or nothing. However, the effect of playing 'nothing' can be to lengthen the previous note so whilst maintaining a strong, rhythmic element the machine also contains lengthy sustains.

The pulse of the machine is set to a semiquaver at 120 bpm or 0.125 seconds.

The machine will run indefinitely until stopped by the user.
